Professional Summary

Highly accomplished Software Engineer with 4+ years of experience developing, testing, and maintaining **high-quality software applications**. Extensive expertise in **performance and scalability**, **troubleshooting and resolving software defects**, and collaborating with **cross-functional teams**. Deep understanding of **software development methodologies** such as Agile and Scrum.

Technical Skills

Programming: Python, Java, C++, Go, Rust, TypeScript, JavaScript, Bash

Backend: Node.js, Advanced API Design

Cloud Platforms: AWS, Azure, Google Cloud (GCP)

Version Control: Git (Advanced workflows)

Databases: MySQL, PostgreSQL

Frontend: HTML, CSS, JavaScript

Engineering: **Define and design new features**, Code Reviews, Best Practices, Debugging, **Performance Optimization**, CI/CD Pipelines

Experience

Senior Software Engineer — TechNova Solutions (2019 – Present)

- **Developed, tested, and maintained high-quality software applications** using Python, Java, C++, and Node.js.
- Worked with **cross-functional teams to define and design new features** for multiple core products.
- **Troubleshoot and resolved software defects**, increasing reliability by 40%.
- Led **code reviews ensuring adherence to coding standards and best practices**.
- Implemented distributed cloud architectures on AWS, Azure, and GCP optimized for **performance and scalability**.
- Mentored junior engineers and drove Agile/Scrum ceremonies.

Education

Bachelor's Degree in Computer Science

State University, 2019

Projects

Enterprise Feature Management Platform

- Designed a scalable microservices system deployed across AWS + Azure.
- Improved API performance by 40% using optimized algorithms.
- Implemented automated CI/CD pipelines and strict Git branching strategies.

Additional Skills

- Excellent communication & teamwork.
- **Fast-paced startup environment** experience.
- Rapid technology adoption ability.
