Professional Summary

Experienced Software Engineer with 3+ years of experience developing, testing, and maintaining **high-quality software applications**. Strong problem-solving skills with the ability to work effectively in a **collaborative environment** and with **cross-functional teams**. Proven record of delivering features using **software development methodologies** including Agile and Scrum.

Technical Skills

Programming Languages: Python, Java, C++, Go, Rust, TypeScript, JavaScript, Bash

Backend Technologies: Node.js, REST API Development

Cloud: AWS, Azure, Google Cloud (GCP)

Version Control: Git

Databases: MySQL, PostgreSQL

Frontend: HTML, CSS, JavaScript

Software Engineering: Debugging, **Troubleshoot and resolve software defects, Performance and scalability**, Best practices, Code reviews

Experience

Software Engineer — TechNova Solutions (2020 – Present)

- **Developed, tested, and maintained high-quality software applications** using Python, Java, C++, and Go.
- Worked closely with **cross-functional teams** to **define and design new features**.
- **Troubleshoot and resolved software defects**, improving stability and performance.
- Participated in **code reviews to ensure adherence to coding standards and best practices**.
- Worked in a **collaborative environment** using Agile and Scrum **software development methodologies**.
- Implemented backend and cloud modules focused on **performance and scalability**.

Education

Bachelor's Degree in Computer Science

State University, 2020

Projects

High-Performance Task Manager

- Designed and built a platform emphasizing **performance and scalability** using Python, Node.js, and PostgreSQL.
- Implemented CI/CD workflows and Git version control pipelines following **best practices**.
- Integrated AWS, Azure, and GCP-based deployment modules.

Additional Skills

- Strong communication and teamwork abilities.
- Experience in a **fast-paced startup environment**.
- Ability to adopt new technologies quickly.
